Myself

I'm a passionate and highly motivated freshly graduated software developer with a few years of work experience looking for new challenges and opportunities to advance my career. I am an achievement- and technologically motivated person and love working in environments that encourage learning and innovation. I have a strong background in coding and problem solving, love learning and I work well in a team and individually. I'm easygoing, approachable, and have a good sense of humor.

Experience

Software Developer

Akamon Innovations Oy | Jan 2022 – Present

- Full-stack development including reusable UI components for an internal library, REST and GraphQL APIs, database modeling, event-based messaging and external service integrations.
- CI/CD management with Github Actions and AWS code pipelines.
- Developing a service-oriented distributed cloud-based system architecture with AWS CDK
- Some of my major contributions include creating a service level error monitoring tool with AWS CDK and creating a complete electricity contract ordering workflow from the UI to databases to integrations.

Software Developer Trainee

Akamon Innovations Oy | Jun 2021 - Sep 2021

- Building and training an AI chatbot using Facebook's Wit.ai for intent processing.
- Full-stack development for chatbot conversation handling, including automated WhatsApp messaging and customer service web application.
